WORK EXPERIENCE

FREELANCER

Packageing Designer

PUNE,MH

Jun 2025 - Present

- Designed a luxury packaging box for **Adaara Couture's** Ethnic Collection, blending traditional Indian motifs with contemporary structure; focused on premium unboxing and material sustainability.
- Redesigned dried spices packaging for **Drystech**, developing stand-up pouch and jar label systems that balanced freshness retention with visual identity and clear ingredient communication.
- Worked on **label and primary packaging design** for boutique consumer brands

Keizen Design Solutions[CONTRACT]

Feb 2025 - May 2025

- Contributed to **Reloom**, a sustainability-focused interiors platform, helping visualize material libraries and eco-friendly finishes for digital product experiences.
- Designed **presentation assets and virtual material boards** that communicated texture, color, and brand feel strengthening client understanding of sustainable design directio.(In development)

ELECTROMOTION E-VIDYUT

Product Designer

PUNE,MH

Jan 2024 - Dec 2024

- Designed **retail packaging for Electromotion's automotive accessories**, including a **cardboard box for car mats** optimized for shipping durability and shelf presentation.
- Created **surface graphics and pattern designs** for the car mats, balancing visual appeal, manufacturability, and brand consistency across product variants.
- Developed dielines, material specifications, and visual mockups for packaging prototypes using **Illustrator, Photoshop, and Fusion 360**.

Product Design Intern-Electromotion E-Vidyut

Jul 2023 - Dec 2023

- Designed **user-centered concepts for automotive accessories (car mats)** using CAD tools, creating high-fidelity renderings in Photoshop and Canva that improved stakeholder feedback and design iteration.

CRAYONTEC [CONTRACT]

Digital Imaging Designer

NAGPUR,MH

Jun 2021 - Oct 2021

- Processed and annotated **Disney Park imagery and video datasets** in AWS for Globant, ensuring accurate tagging to support AI-driven products.
- Collaborated with engineers on dataset standards, applying consistency and structure that improved the usability of training data for computer vision models.

INTERNSHIP EXPERIENCE

BIO RESOURCES

Packaging Design Intern

Hyderabad,TL

Feb 2023 - Jun 2023

- Designed **seed packaging and labeling systems** for vegetable and plant varieties, focusing on clarity, usability, and visual differentiation across SKUs.
- Developed dielines and print-ready layouts for **flexible pouches and cardboard cartons**, ensuring cost-efficient material use and brand consistency.
- Conducted visual research on **agricultural packaging trends and color coding**, helping standardize the brand's product range for better shelf recognition.
